KOMODO NATIONAL PARK
FREEDIVE & YOGA
LIVEABOARD EXPEDITION

21-29 MAY 2027

Explore, relax and deepen your connection to the ocean, your ocean community and yourself.

You intuitively know that a week-long nature-based freediving and yoga retreat with Blueback Freediving & Yoga, with manta rays, on pristine coral reefs, exploring the warm, rich seas around the turquoise waters of the UNESCO World Heritage Komodo National Park off our own private freedive liveaboard charter is the way to explore, relax and reconnect.

BLUEBACK
OCEAN ADVENTURES

LIFE ON THE SEA

Our journey begins in **Labuan Bajo**, a harbor town with a distinctly ‘Pirates of the Caribbean’ feel. Located on the western tip of Flores Island in Indonesia, LB is known as the main gateway to the famous Komodo National Park. From there you’ll be transported to our gorgeous traditional Indonesian sailing ship, wrapped in wide blue horizons and majestic, rolling hills. An **incredibly biodiverse coral reef ecosystem** flourishes right outside our door, every day, with daily opportunities for reef and oceanic manta sightings during our expedition.

Together we’ll explore the **coral gardens** of Komodo and go in search of **giant manta rays** and **wild Komodo dragons**, we’ll freedive, rest, eat and repeat for 7 glorious days.

WILD KOMODO

Your week-long holiday is specially designed with qualified freedivers in mind, with beginners welcome to join in and encouraged to improve their open water confidence in the lead up to the trip.

Minimum Level 1 Freediver certification is required.

Our trips will be guided by local sea captains, safety-supervised by freediving professionals and a marine biologist to teach us about the mantas and help you identify the various types of sea life in the **world-famous Coral Triangle**.

Our freedive sites will range from 2m to 30m plus.

OCEAN ADVENTURES

KOMODO PARK

Komodo National Park in Eastern Indonesia was originally established by the Indonesian Government in 1980 to protect the Komodo dragon, although the park is also renowned by experienced divers as **one of the top dive sites in the world**. Recognized as a **UNESCO World Heritage Site** in 1991, Komodo NP is situated within a narrow channel between Flores and Sumbawa. It is comprised of three large islands (Komodo, Padar and Rincah) and 26 smaller ones to occupy nearly 2,000 km2.

The biodiversity of Komodo NP is phenomenal. One thousand species of tropical fish including the Napoleon Wrasse, 260 species of coral, 70 species of sponges, 7 species of sharks including hammerhead sharks and grey reef sharks and rare marine mammals such as the endangered dugong live within Komodo NP.

Strong daily tidal flows combine with nutrient-rich water upwelling from the depths of the Indian Ocean to create ideal conditions for thousands of species of corals and tropical fish to flourish.
